Introduction
Notes on Style
List of Short Titles

January–March 1854

Samuel Foster Haven proposes memoir on archaeology—Rufus Choate urges “heartly, bonafide, unfudged execution” of funding compromise (Doc. 3)—Remarks on the organization of a local scientific society—Petition to Congress to add \$150,000 to Smithsonian funds in United States Treasury—Crisis at the Smithsonian: “a violent effort is making to disgust me with my position” (Doc. 15)—On Spencer F. Baird and Charles C. Jewett: “I am determind that my assistants shall know their places” (Doc. 16)—To Asa Gray: “I fully agree with you that the Regents must put down the assumptions of the assistants or I must leave” (Doc. 17)—On Jewett: “his views and my own have constantly been at variance” (Doc. 18).

April–June 1854

To Richard Rush: “The Institution has now reached a crisis in its history” (Doc. 22)—Baird on the crisis: “Prof. Jewett and Prof. Henry are in a condition of apparently irreconcilable warfare” (Doc. 25)—Policy on government collections—John Torrey’s warning to Baird: “let Mr. Jewett fight his own battle” (Doc. 30)—Baird on his relationship with Henry—Report of the Special Committee of the Board of Regents (Doc. 32)—Attack by Jewett on mayor of Washington—To the editor of the *Newark Daily Advertiser*: “Put this matter right” (Doc. 42)—To John Maclean of Princeton: “I am just now in a very unsettled condition” (Doc. 48)—Offer to “cheerfully take the scientific direction” of the preservation and description of government collections (Doc. 49).

July–September 1854

To Rush: “The future history of the Institution depends on the action of the Board at the next meeting” (Doc. 50)—Dismissal of Jewett—Samuel F. B. Morse claims telegraph owes “little, if anything” to Henry’s work (Doc. 56)—To Alexander Dallas Bache: “The Jewett party have renewed

The Papers of Joseph Henry

their vow to break me down” (Doc. 58)—Jewett’s appeal to regents—Advice to the secretary of state on American participation in international exhibitions.

October–December 1854

Remarks on international copyright; anticipates “violent attack” at next session of Congress (Doc. 68)—Dismissal of Lorin Blodget—To Joseph Leidy: “I feel that the place requires me more than I want the place” (Doc. 77)—Complaint from meteorological observer: “Pure love for science is not always sufficient to keep a man at his post” (Doc. 80)—James Henry Coffin on plan for reduction of meteorological data—“A desperate effort is making to prejudice the members of Congress against me” (Doc. 86)—On spiritualism: “What a strange condition of the public mind is this” (Doc. 87)—Description of table tipping—Meeting of Saturday Club—First use of new lecture room—Address to American Association for the Advancement of Education.

January–March 1855

Choate resigns in protest from Board of Regents—To James Dwight Dana: “I would rather sink with the good opinion of the few than swim with the approbation of the rabble” (Doc. 103)—Board acts in support of Henry—Journal of the House Select Committee (Doc. 105)—To Millard Fillmore: “If I cannot be sustained by the majority of the Regents the sooner the property is returned to england the better” (Doc. 106)—To Thomas M. Brewer: “The opposition are becoming desperate” (Doc. 107)—Statement on Lorin Blodget (Doc. 112)—Jewett appeals to George Perkins Marsh—Marsh on the compromise of January 1847—Coffin on reduction of meteorological data—To John F. Frazer on resolution of House investigation—To the regents: “A violent attempt will be made to injure me personally” (Doc. 121)—Chief Justice Taney advises Henry against suing Morse for libel—On credit for scientific discovery.

April–June 1855

On House Select Committee: “The record is faulty in the extreme” (Doc. 130)—Harriet Henry’s illness—The Smithsonian as scientific advisor to government agencies.

July–September 1855

Proposal to Patent Office to cooperate in meteorology—Argument for federal funding of research on propeller blades—Comments on importance of mall unobstructed by buildings or monuments—Experiments on diamagnetism—Bulletin to Bache: Know-Nothings take aim at Coast

Contents

Survey; upcoming meeting of the American Association for the Advancement of Science—Experiments on freezing—Warm reception at AAAS meeting in Providence: “My appearance at Providence did much to dissipate the prejudice which Mr. Jewett had succeeded in creating against me” (Doc. 159)—To Bache: “I have been much gratified with my reception at the north” (Doc. 162).

October–December 1855

To James Hall: “I am anxious to vindicate my moral character from the charges against me by Professor Morse” (Doc. 164)—Complaint to Frazer on critical review of Smithsonian publication—Advice to Haven to use caution in addressing the “vexed question of the unity of the races” (Doc. 169).

January–March 1856

Condolences to Torrey on the death of his wife and anguished reflections on the Smithsonian secretaryship: “The position has been a severe school” (Doc. 173)—Remarks on the National Institute—“Co-operation and not monopoly is the guiding motto of the Institution” (Doc. 175)—Hall’s recollections of Henry’s early telegraph—To Maclean on the importance of a scientific department at Princeton—Initial agreements concerning Joseph Jones’s memoir for Smithsonian Contributions to Knowledge—Charles Mason’s statement on the telegraph controversy.

April–June 1856

To Haven advising caution on polygenesis—Angry letter from the surgeon general: “I am not accountable to you” (Doc. 195)—Leonard D. Gale’s statement on Henry’s contributions to Morse’s telegraph—Continuing problems with Jones’s memoir—Surgeon general complains of Henry’s “offensive and dictatorial language” (Doc. 204)—Comments on war: “I would that it were possible to convert the officers of all the armies of the earth into scientific investigators” (Doc. 206)—Suggestions for evaluating telescope made by Charles A. Spencer for Hamilton College—To Minnesota Historical Society on the importance of preserving records of the past and present—On agricultural initiatives proposed for the Patent Office—Final arrangements for Jones’s memoir.

July–September 1856

Career advice to a discouraged Charles M. Wetherill: “There is certainly a growing demand for practical chemistry in this country” (Doc. 214)—Recommendations by the Scientific Council of the Dudley Observatory for operating the observatory—Scientific Council appeal for operating endowment—“Work, Work work”: preparing the annual report for 1855

The Papers of Joseph Henry

(Doc. 220)—Criticism of Matthew Fontaine Maury’s “absurd ideas” (Doc. 221)—“Flair up” over smells in the fish room (Doc. 224)—Complaints of a volunteer meteorological observer, “thoroughly disgusted with the dilatoriness of the S.I.” (Doc. 225)—Light-House Board tour: construction of Minot’s Ledge light house.

October–December 1856

More complaints from meteorological observers: “I thought the treatment unfair” (Doc. 228)—Defense of Smithsonian meteorological program—Setting the groundwork for progress in meteorology—Fundraising for the Dudley Observatory—Statement of Salmon P. Chase regarding Henry’s deposition in telegraph case—Report to secretary of war on production of nitre—Lobbying activities with Bache—Summary of progress in meteorology—Appeal to secretary of navy to fund reports from North Pacific and Paraguay expeditions—Candid remarks on Blodget—Questions relating to the completion of the Wilkes Expedition reports.

January–March 1857

Lewis Henry Morgan praises the Smithsonian annual report: “You can make it of great use to the country, and by means of it introduce the Institution to the popular favor” (Doc. 249)—To William Ferrel praising his work on winds and currents and criticizing Maury’s *Physical Geography of the Sea*—Statement on counterfeit coinage—Appeal from claimant to perpetual motion.

April–June 1857

Announcement of transfer of Wilkes Expedition collections from Patent Office to the Smithsonian—Career advice for astronomer Simon Newcomb—Daniel Huntington’s *American Men of Science*—Authorization by secretary of the interior to transfer government collections in the Patent Office to the Smithsonian.

July–September 1857

Secretary of the treasury questions authority to disburse appropriated funds to secretary of the Smithsonian—AAAS meeting in Montreal, visit to Detroit.

October–December 1857

Comments on the Depression of 1857: “I fear the worst has not yet come” (Doc. 271)—On the temperature of Niagara Falls—On laying the transatlantic cable—Remarks on appropriations for government collections—On the role of hypotheses and theories—Remarks on

Contents

the alchemists—Ammunition for defense against “malicious attack” of Morse (Doc. 281)—Benjamin Apthorp Gould’s appeal to Dudley Observatory Scientific Council for authority to dismiss C. H. F. Peters.
